

# R1138 GWR PASSENGER

# FREIGHT TRAIN SET HORNBY

The versatile GWR 0-4-0 locomotive makes easy work of hauling the 2 open wagons and the small coach around the oval of track which includes an additional siding providing an area where selected wagons can be deposited and collected again as the train travels the circuit.

The set also includes a midi mat on which the track included can be placed. Additional track packs and accessory packs can be added to extend the layout to a fully functioning model railway.
