

E-Flite Celectra 4-Port 1-Cell 3.7V 0.3A DC Li-Po Charger

Key Features

- Four independently functioning charging circuits to reliably charge your single-cell Li-Po batteries
- AC to 6VDC power supply compatible
- All 4 ports can be used simultaneously or one at a time
- No need to use batteries while at home near a power source. Use our optional E-flite 6V power supply (EFLC1005)
- High capacity D-size batteries provide many charges and maximum portability
- Charges E-flite® and ParkZone® single-cell Li-Po batteries.

Overview

The Fast and Easy Way to Charge Ultra-Micro Batteries

The purpose-built charger for 1-cell batteries utilized by ParkZone's Vapor™, Ember™, Ember 2 and Sukhoi, and E-flite's Blade® mCX, there's no better choice than the fast and efficient Celectra™ 4-port charger. With ultra-micro aircraft making waves as the hottest innovation in RC, it's also a charger certain to be in high demand among customers. The Celectra operates off of D batteries, or at home with the convenience of E-flite's AC to 6VDC 1.5A Power Supply (sold separately).

Product Specifications

Type: 4-Port 1-Cell Charger
Input: 4 D-size batteries or optional E-flite AC to 6VDC 1.5-Amp

	Power Supply
# Cells:	1 to 4 single cell Li-Po
Battery Type:	Lithium Polymer
LED:	4
Experience Level:	No Experience Necessary
